Hi All

Many thanks for meeting on Thursday night.

I believe the most important issue to arise is that there is an urgent need to improve communications between the Junior and Senior Sections of the Rugby Club.

It is important that consultation and discussion should take place before decisions are made that affect both Sections.

For example :-

1. The amount each section should contribute to the Rugby Club levy to the R&SC.

2. The use of pitches and timing of training sessions.

The Junior Committee and Coaches have done a fantastic job building the Section to the size it is now and guaranteeing the future of the Club. It is important that the Sections work together to ensure the future development of the Senior and Junior Sections of the Club.

It is accepted that the Junior Convenor or his representative should attend the Rugby Club Committee meetings and that both Sections should provide each other with a copy of their accounts. Copy of last years accounts attached.

On a separate issue. Perhaps it would be worth re-considering the letting of the Function Room on weekend afternoons. The function Room could be let to Members and Friends, providing payment is made to cover costs of additional staff and there are no issues with parking because of games and training sessions.

My thoughts, any comments would be welcome.

Regards

Ivor
